An occupational therapy program  
for children with Autism Spectrum  
Disorder and/or sensory-motor  
issues who exhibit limitations in  
play, school, socialization, and  
activities of daily living due to:

- Sensory processing issues
- Auditory processing delays
- Perceptual motor problems
- Low muscle tone
- Motor planning problems
- Visual processing delays

The program is staffed as follows:

- Director (OT)
- Occupational Therapists
- Speech Therapist
- Physical Therapist
- Level 2 OT Interns
- Speech student externs
- 1<sup>st</sup> year OT students
- Volunteers

This level of staffing enables us to  
have a 2:1 ratio (2 children to each  
staff person). This ratio also lets us  
work on the child's *individual* goals  
within the context of the group. We  
do **NOT** utilize a cookie cutter  
approach. Every child's goals are  
specific to their level of functioning  
and ability.

**Offered at our  
West Caldwell Location:**

Intensive Therapeutics  
31 Fairfield Avenue  
West Caldwell, NJ 07006

## Continuing for 2019

We are providing full-time speech and physical therapy at our therapy center located in West Caldwell, NJ! This allows us to fully-integrate those services into our traditional Camp Leaps and Bounds model, and help maximize camp time to address as many of your child's therapy needs. Our speech and physical therapists will also serve as additional resources for our families during their time at camp.

We will be offering the following program tiers:

### **Tier 1:** Occupational Therapy

Our traditional Camp Helping Hands experience

### **Tier 2:** Two services

- OT + Speech

**OR**

- OT + PT

### **Tier 3:** All 3 therapy services

- OT+PT+Speech

Academic instruction will continue to be an “add-in” service of 3 times per week.

The therapists at **Camp Leaps and Bounds** use carefully designed activities to drive therapeutic gains. For parents who choose to combine disciplines, activities specifically designed to integrate 1, 2 or 3 therapy services will be built in to the camp day. The exciting part of this unique integration of OT, PT and speech goals within a single activity allows a child a full-body, “real world” experience. For example, if balloon volleyball is the camp activity, OT, PT and speech goals can all be met through the strategic emphasis and sequencing of jumping, running, hitting a balloon back and forth, as well as verbal communication with peers. Therapists will seamlessly collaborate to create these ideal therapeutic scenarios and help maximize each moment of the camp day.

We will continue to offer **optional** additional services:

- Academic Instruction
- Individual Speech/PT (see below for additional information)

**Academic Instruction** is provided by Steps to Success Tutors. They use brain-based and hands-on learning strategies to help children maintain and make progress academically.

**Parents are interviewed** prior to the camp to gather up-to-date information about your child's goals for OT, along with PT and Speech goals, if applicable. We use an assessment tool that helps prioritize the child's goals, helps establish functional goals and truly creates a system for the parent's to be involved in the process. We welcome information from other therapists, schools, doctors, etc. so we can truly work on the goals you want. We will also conduct an interview on the last day to get a parent's perception of how your child did during the camp.

We also have **weekly education sessions** for the parents during the camp, so questions can be answered and information about activities and treatment can be conveyed.

## CHOICES OF THERAPY SERVICES:

### **Tier 1: Occupational Therapy**
