# ABOUT US

Intensive Therapeutics is the leading organization providing a collaborative therapeutic program for children and young adults with special needs.

Our child-first, expert services utilize established practices to focus on:

- Autism
- Hemiplegia
- Prevocational and Independent Living
- Everyday Kids (School, Sensory, and the In-Between)

And we do it all so that each child and young adult can reach their fullest potential!

## WHAT WE DO

- We listen to families and parents
- We personalize our approach to the needs of the family/child
- We adapt and grow along with the family/child

## WHAT WE OFFER

- A close-knit, children-first setting
- Collaborative thinking to achieve unthinkable goals
- Tailored, innovative, and unique therapeutic model
- Expert, compassionate staff which inspires children and families

"In a word: extraordinary! The team really cares about each child and the approach is unique. From restraint therapy to more traditional therapy, IT does it all well."  
- L.L.

WE BELIEVE **ALL**  
CHILDREN CAN REACH  
UNTHINKABLE GOALS  
AND UNLOCK THEIR TRUE  
POTENTIAL.

"These guys are the real deal – very effective at helping kids develop and learn new skills."  
- R.R.

"A place that makes therapy feel like FUN and less like therapy!"  
- C.H.

# OUR BEGINNING

Scott Matthews, MS, OT, saw a gap in the therapy world for intensive, client-centered, occupation-based services. He envisioned a place where all children received therapy services regardless of their socioeconomic status—it would be a place without sterile walls, white coats, and beeping machines...it would be a place kids would *want* to go to for therapy.

In 2005, Intensive Therapeutic, Inc., a 501(c)(3) non-profit, charitable organization was born.

Scott would go on to develop all groups and services based on parent and caregiver recommendations and needs. Now, with a team of expert, compassionate staff, Intensive Therapeutics helps each child reach their fullest potential.
