

20th ANNIVERSARY

INTENSIVE THERAPEUTICS

The leading organization providing collaborative therapeutic programs for children, teens, and young adults

ABOUT US

Intensive Therapeutics is a 501(c)(3) nonprofit, charitable organization. Our client-first expert services utilize established practices to focus on:

- Autism
- Hemiplegia
- Prevocational Training
- Everyday Kids (School, Sensory, and the In-Between)

And we do it all so that each client can reach their fullest potential!

MISSION

To create and provide comprehensive, evidence-based therapy services to children, teens, and young adults with and/or within their own community. Intensive Therapeutics is focused on understanding each client and integrating the services and experiences needed to maximize the client's potential all under one roof.

WHAT WE DO

We listen to parents and families

We personalize our approach to the needs of the client/family

We adapt and grow along with the client/family

OUR BEGINNING

Scott Matthews, MS, OT, saw a gap in the therapy world for intensive, client-centered, occupation-based services. He envisioned a place where all children received therapy services regardless of their socioeconomic status—it would be a place without sterile walls, white coats, and beeping machines...it would be a place kids would want to go to for therapy.

In 2005, Intensive Therapeutics, Inc., a 501(c)(3) non-profit, charitable organization was born. Scott would go on to develop all groups and services based on parent and caregiver recommendations and needs. Now, with a team of expert, compassionate staff, Intensive Therapeutics helps each client reach their fullest potential.

WHAT WE OFFER

A close-knit, client-first setting

Collaborative thinking to achieve unthinkable goals

Tailored, innovative, and unique therapeutic model

Expert, compassionate staff which inspires clients and families
